Credit Union Life Savings Insurance

This group policy provides insurance on the lives of the members of the credit union which is based on the amounts of their savings in the credit union.

Qualification

Cover is limited to the member whose signature appears on the loan agreement.

All members who qualify for insurance are automatically included for coverage. They do not need to sign up for their insurance to start.

Insurance on a member starts on each separate deposit that makes up the balance of their savings on its deposit date or, if later, on the date they qualify for insurance on that deposit or on the date this policy starts.

Insurance on a member stops on the date they withdraw their savings or, if earlier, on the date this policy stops.

There is an age limit in the table of insurance. A member does not qualify for insurance on any savings which was deposited on or after their 65th birthday. If a member misstates their age, the insurance, if any, will be determined by the correct age.

A maximum of £10,000 is payment on settlement should a members savings exceed £10,000. A member may not qualify for insurance on more than this amount of their savings balance. If the balance of the savings is more than this, the member does not qualify for insurance on the excess.

Pre-Existing Conditions and Exclusions

Each member qualifies for insurance on a deposit is subject to the following pre-existing condition:

- There shall be no benefit for the deposit if death results from an illness or injury for which medical advice, consultation or treatment was received within the 6 month period prior to the date the deposit was made. This rule will not apply if a member dies 6 months or more after the date of the deposit.

Each member who makes a deposit into their credit union savings qualifies for insurance subject to the following

Excluded Savings

A member does not qualify for insurance on the following class of savings:

1. Individual Savings Account (ISA)

Payment in event of a claim

The credit union shall liaise with the insurer for all claims on behalf of the member and or his/her estate.

The amount of a member's insurance is based on:

- a) the insured balance of savings on the date of death, and
- b) the age on the date of each deposit for which they are insured as follows:

| If the age on the date of deposit was | The amount of the insurance is equal to: |
|---------------------------------------|--|
| 16 – 64 years old | 100% |

This does not decrease as a member grows older provided that the deposit remains in the member's savings account. The insured portion of the savings balance may not exceed the savings limit which is a maximum of £10,000.

If a member dies while he/she is insured under this policy, we will pay the proceeds of his/her insurance to the credit union for credit to his/her loan. If the insurance proceeds exceed the balance of a member's loan and accrued interest, the excess will be paid by the credit union to his/her estate.

Proof of death must be submitted to us within two (2) years of the occurrence of death. If notice and/or proof cannot reasonably be given within the period, the claim will not be invalidated if it is shown to have not been reasonably possible to give notice and/or proof, prior to the date it is first presented. Proof of death must be in the form of a death certificate.

Settlement shall be made not later than 2 months after the receipt of the certified copies and/or any additional medical information required by the insurer to adjudicate the claim.

If a member has misstated his/her age to the credit union, the amount of his insurance will be determined by his/her correct age. If he/she is older than the age limit we will not pay a claim.
